RACE TROPHY NOW ON HAND

The prize which belongs to the Diamond Heads for winning the mile relay race at the Y. M. C. A. games held recently has arrived and is on exhibition at E. O. Hall's. There is a question as to just what it is. It was ordered under the name of a punchbowl, but having passed through several prohibition states and through the hands of the Y. M. C. A. it is now said to be a lemonade bowl.

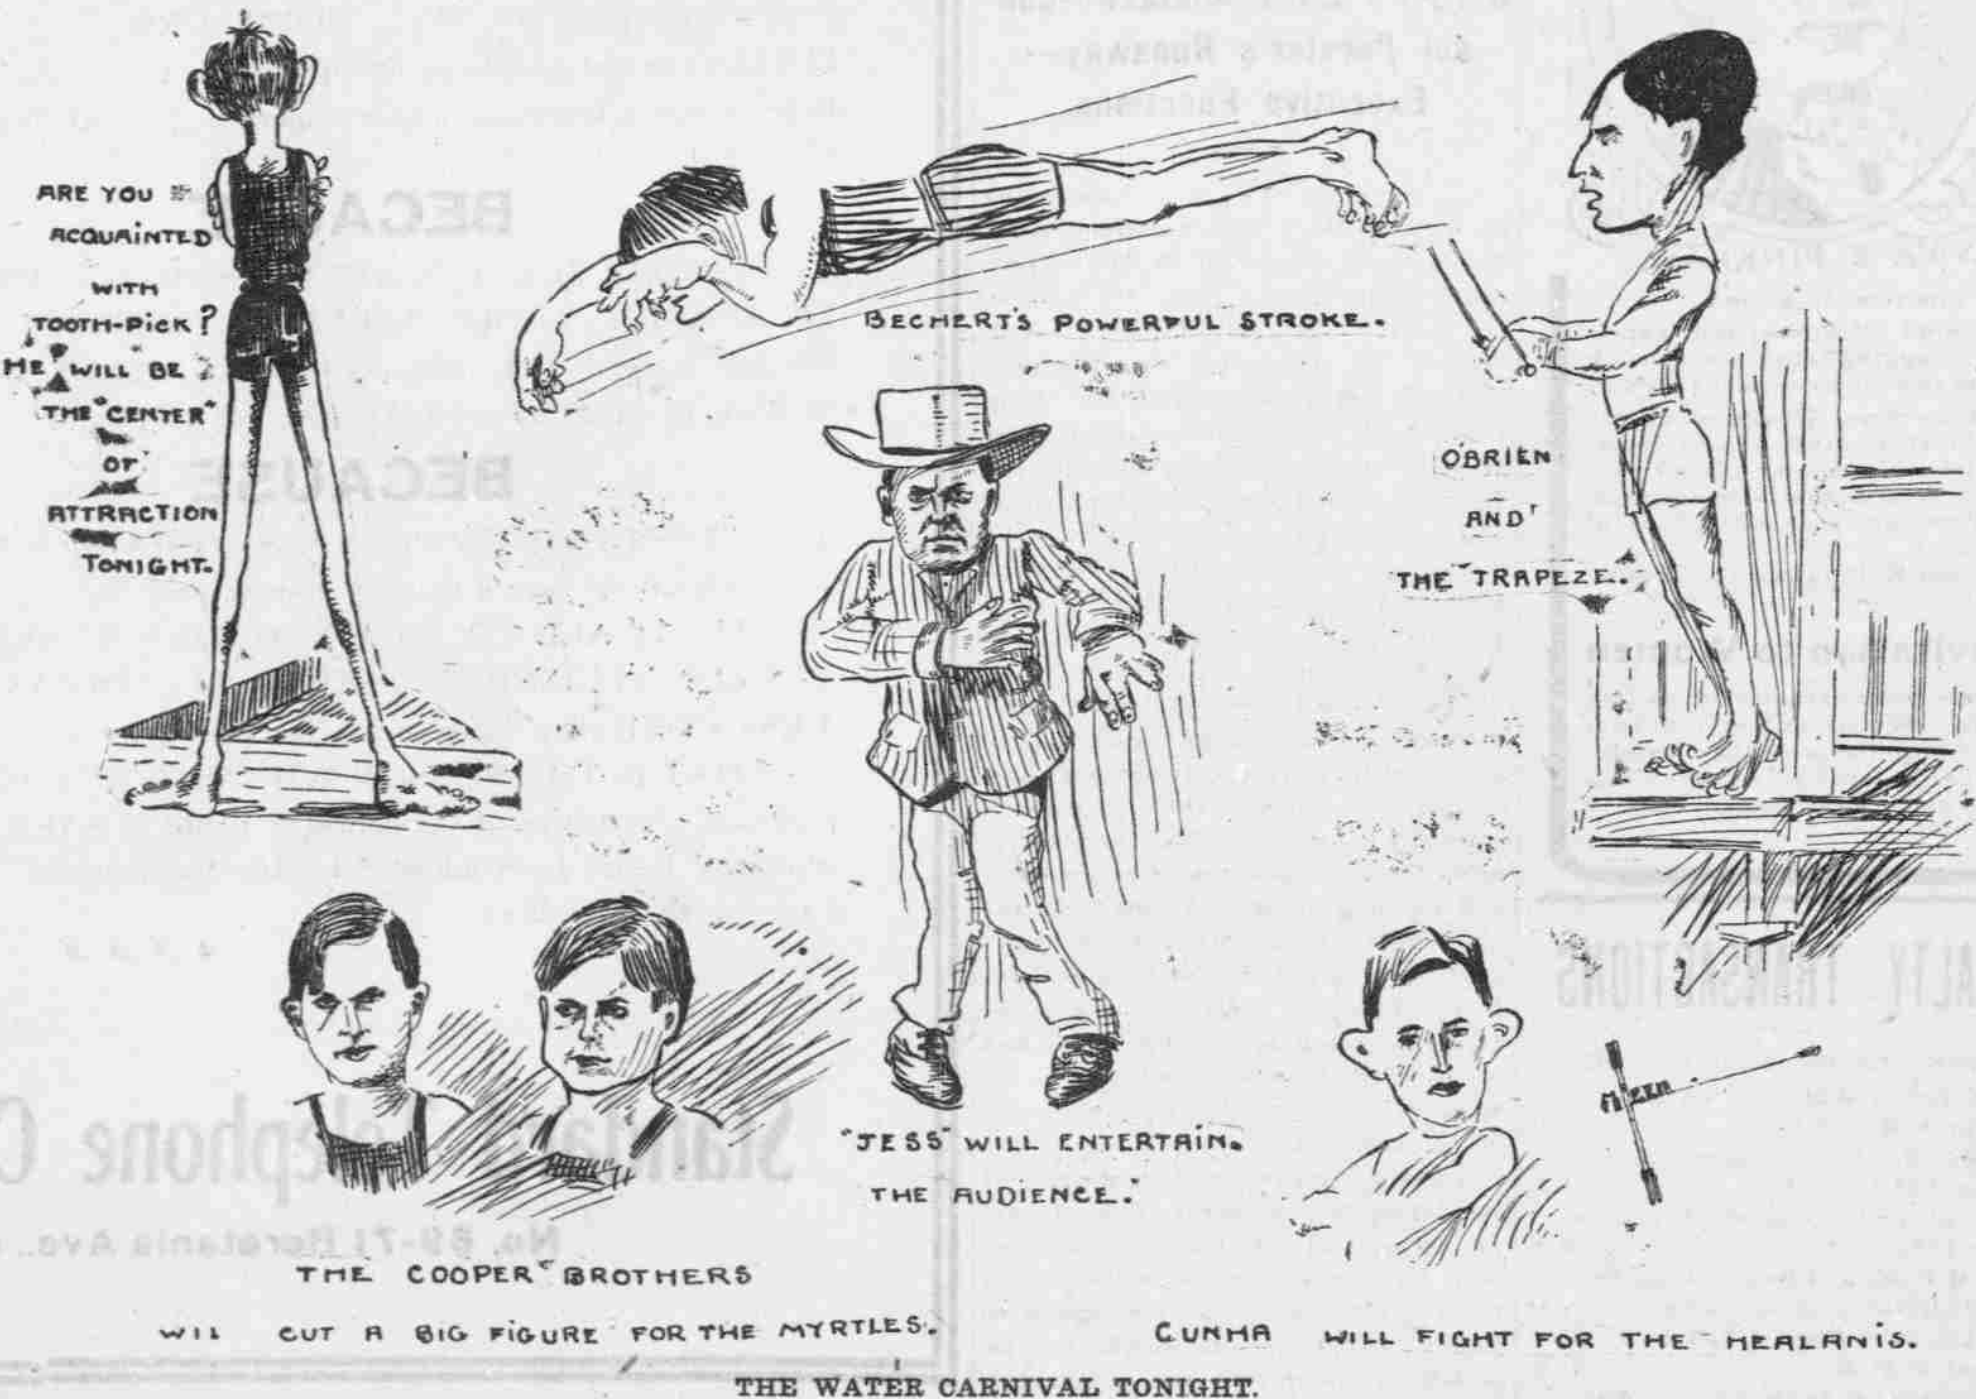

It is a very handsome trophy, being a large pewter bowl, with copper chasing. It is about sixteen inches in diameter and stands about fourteen inches in height and is accompanied by a ladle. The bowl is appropriately inscribed, with the fact that it is the trophy for the mile invitation relay race at the Y. M. C. A. games, and the names of the members of the team, John Carey, J. Bettencourt, W. Rice and Frank Scharsch are engraved on it.

FAST POLO TOMORROW

The polo game which takes place tomorrow will mean a great deal to the players who take part. From the work done on the field the team which will represent the Oahu Polo Club in the three games to be played against Maui will be selected, and from tomorrow on they will play together in practice against the strongest picked teams which can be selected from the other members of the club.

Both the Reds and the Blues are in good condition, and with the two teams as they stand at present the contest should be very close in the game tomorrow. The odds this time seem to favor the Blues a little, as, with the changes which have been made in the lineup, they have a little the best of it. The field is in first-class condition for fast play and the ponies are all fit, so hard and fast play is expected.

SPORTS

GEORGE FREETH OFF TO COAST

Will Illustrate Hawaiian Surf-riding to People in California.

Among the passengers to sail for the Coast on the Alameda today will be George Freeth, of this city, who is on his way to Southern California to give exhibitions of Hawaiian water sports to the people of that section. He has done more to revive surf riding and canoeing in this city than anyone else during the past few years. Through his exertions, what seemed bound to become a lost art, has once more sprung into vogue and is being practised by both Hawaiians and haoles.

At the time when Freeth first took up surf riding there had been very few here for many years who had been able to perform the trick of standing on a surf board, and coming in to the shore on the crest of a wave. The white man who could do it was exceptional. Freeth determined that if the old natives had been able to do the trick there was no reason that he could not do the same. In a short time he had mastered the feat and then went further. The older inhabitants told of natives in the early days who stood on their heads when they came in. Freeth soon proved that this could be done at the present time as well as before.

A great deal of practice was needed to perform this last mentioned feat. Freeth tried a number of surf boards, some long and narrow, others shorter but with more breadth, and also of varying thicknesses. Finally he found one which was suited to him and the trick was done.

Freeth has been for several years one of the finest swimmers and divers in the Diamond Head Athletic Club and has been a great attraction in all the swimming and diving exhibitions given in this city. The most difficult feat of fancy diving is to him simple and he shows an unusual amount of grace in his performances.

When the Congressional party made its tour of the other islands Freeth was taken with them by Acting Governor Atkinson to act as a lifesaver in case one of the boats should be upset in making a dangerous landing. He has figured as a life saver a number of times and as a fast and strong swimmer has few equals in the United States.

Freeth takes with him letters from the Promotion Committee, from Jack London and from Alexander Hume Ford, who has recently completed a series of articles on his experiences in Hawaii. Both London and Hume have made Freeth the central feature in articles which will appear in the Ladies' Home Journal and in Outing. Both these gentlemen have become personal friends of Freeth's through the exhibitions which he has given them of surf riding and they have both taken lessons in the art from him.

Freeth does not take a Hawaiian surfing canoe with him but if his trip is successful he expects to visit the Atlantic Coast next year in company with "Duddy" Miller, his closest friend who is also skilled in this art, and take a couple of canoes. The various summer resorts of the East will be visited in this case and passengers will be taken out and given a chance to enjoy the Hawaiian sport.

An ancient custom in connection with the letting by auction of a piece of land at Bourne, Lincolnshire, known as the "White Bread Meadow," has again been observed, says Tit-Bits. At each bid a boy is started to run to a certain public house, and the land is let to the person whose bid has not been challenged when the last boy returns.

FIRST CASH IS GIVEN FOR YACHT

C. A. Widemann Makes First Donation for the New Racer.

The first cash subscription for the building of the yacht which will represent Hawaii in the transpacific race of 1908 was received yesterday by Will McInerney. There has been no call for subscriptions issued as yet but the letters to those who are thought likely to subscribe will be sent out towards the last of this week. The island of Hawaii will be the first to receive this attention and it is expected that the letters to that island will be mailed on Friday in time to go on the Claudine. The other islands will receive their communications on this subject shortly and the movement will then be under full headway.

The honor of donating the first sum in cash goes to C. A. Widemann of Waimea, Hawaii. He is in this city at present and paid Will McInerney a visit yesterday morning for the purpose of giving his share toward the boat which will represent the Territory of Hawaii. From what he says, the island of Hawaii is greatly interested in the race and there should be a goodly amount of money raised there without trouble.

The active work in regard to the new yacht will not commence for some two or three weeks. The plans from Crown-Insfield were to be here five weeks from when they were ordered. Three weeks of this time have already expired. These plans will be preliminary ones as there will be many details which will have to be decided later on.

Every bit of material for the boat, both in her construction and for her furnishing, which can be bought in Honolulu will be purchased here. There are, of course, many things which will be needed which will not be available in this city and it is probable that a member of the committee, who will be in the East at that time, will be commissioned to purchase these and ship them here.

MANY TO SHOOT FOURTH OF JULY

The Real Opening of the Dove Season Will Occur Next Thursday.

The dove shooting season opened Monday and a few hunters, who were able to get away from their business, took advantage of this the fact and got fairly good bags. The real opening of the season, however, will be on the Fourth of July, when all the shot-gun owners will be out in force. The birds are said to be very plenty this year but the usual limit of fifty birds will be observed.

The fifty bird limit is one which has been voluntarily placed on doves by the local sportsmen, who do not desire to see the shooting on the island spoiled. Every member of the Hawaiian Gun Club is bound not to shoot more than this number and almost all the other shots of the city have agreed to keep within this limit. To find a man coming home with more than this number will ostracize him.

Cheaper than daylight—Gas at one-fifty per thousand.

COUNTRY CLUB GOLF EVENT

The only golf event which is scheduled for the Fourth of July is a tournament to be held at the Country Club. This will be an eighteen hole medal play tournament which will be completed early in order that the players may be through in time to attend the polo game at Moanalua, which will be the event of the day.

There have been two prizes offered by the club and it is expected that the entry list will be a large one. The play will start promptly at 10:30, and the entries will be received up to that time at the clubhouse.

ORDER SCOTCH GOLF CLUBS

A new stock of golf clubs which has been ordered from Scotland by E. O. Hall & Son is being awaited anxiously by the local players. The shipment mentioned has been ordered from James Gibson, one of the most famous club makers in Scotland and it is expected that they will be unusually fine. According to E. O. Hall the clubs are so Scotch that no one can use them unless he drinks Scotch whiskey, eats scones and wears kilts. White states that he is practising the latter trick in his back yard before the clubs arrive and he wears the kilts in public.
